Aida Ceram
White body tiles

The creation of any beauty depends on the way that its creator sees it. Inspiration from nature, creating diversity in designs and surfaces. This feature brings creativity in design and boundless beauty. **AIDA CERAM** means variety in attitude

About Naseri Industrial Group

Naseri Industrial Group started its activity in 1990 in Birjand city, located in the south of Khorasan province, under the name of Niloofar Tile Co., and by producing quality products at the beginning of its activity, it gained a significant share in the market. According to the needs of the market in 2001, this group established its second company called Tima Tile Industries Co., which is one of the top brands in the country in the field of wall tile production. Naseri Industrial Group established Sadaf Khavaran Mining and Industrial Company according to its needs and preventing from the sale of raw materials, in which a large number of mines such as kaolin and industrial soils are extracted and processed. In line with the market needs, this group established phases 2 and 3 of Niloofar Tile Co. in Birjand in 2008, and then it established Aida Ceram Tile Industries Company in 2009, which completes the product portfolio of this group regarding ceramics and tiles. Due to the change of tastes and interests of people, a very advanced and modern production line was launched in this group in 2021 under the name of Rosenthal Porcelain, in which the polished and Nano porcelain slabs in very large sizes are produced; that its machinery is among the firsts in the country. It is worth mentioning that these companies have exported their products to several countries, including Iraq, Afghanistan, counties of Southeast Asia, the countries of the Persian Gulf, African countries and even some European countries. Also Hezardastan Agro-Industrial Co. is another company affiliated to this group that with the aim of employing women, including women with disabilities, by producing Dutch roses and animal husbandry and horse breeding complexes in one of the most deprived parts of the country, has a significant share in the production of local products in this part of Iran. It is worth mentioning that this complex, with the employment of over one thousand three hundred people directly and thousands of people indirectly in a complex with an area of five hundred thousand square meters, has been one of the largest holdings in the country in terms of production and so far has achieved many national and international titles, including the top manufacturer for several times, top exporter, top entrepreneur, top global brand and etc.

STONE

Choosing to tile a room setting means giving it not only a face lift but a new soul. This is why it is important to choose the type of flooring very carefully.

A new type of tile has been on the market for around a decade, a tile with special features and a highly attractive visual impact that is making headway.

These are tiles that look like stone.
